

SCOTTSDALE CITY COUNCIL
REGULAR MEETING MINUTES
TUESDAY, AUGUST 20, 2024

CITY HALL KIVA
3939 N. DRINKWATER BOULEVARD
SCOTTSDALE, AZ 85251

CALL TO ORDER

Mayor David D. Ortega called to order a Regular Meeting of the Scottsdale City Council at 5:01 P.M. on Tuesday, August 20, 2024 in the City Hall Kiva Forum.

ROLL CALL

Present: Mayor David D. Ortega; Vice Mayor Barry Graham; and Councilmembers Tammy Caputi, Tom Durham, Betty Janik, Kathy Littlefield, and Solange Whitehead

Also Present: City Manager Jim Thompson, City Attorney Sherry Scott, City Treasurer Sonia Andrews, Acting City Auditor Lai Cluff, and City Clerk Ben Lane

PLEDGE OF ALLEGIANCE

The Pledge of Allegiance was led by Councilwoman Littlefield.

MAYOR'S REPORT

Mayor Ortega called attention to the ongoing wars in foreign countries as they fight to protect their freedom and democracy and asked for a moment of silent reflection for these war-torn countries and for the safety of our military personnel.

Mayor Ortega asked for a moment of silence in memory of former Councilmember Robert Pettycrew. Councilmember Pettycrew was a graduate of Coronado High School and served on the City Council from 1994 to 2002.

CITY MANAGER'S REPORT

- **Fast Five Video Update**

Note: The Council may make comments or ask questions to the presenter(s); however, no Council action will be taken.

City Manager Jim Thompson introduced a "Fast Five" video produced by the City's Communications Office which provided updates on several City events and offerings.

NOTE: MINUTES OF CITY COUNCIL MEETINGS AND WORK STUDY SESSIONS ARE PREPARED IN ACCORDANCE WITH THE PROVISIONS OF ARIZONA REVISED STATUTES. THESE MINUTES ARE INTENDED TO BE AN ACCURATE REFLECTION OF ACTION TAKEN AND DIRECTION GIVEN BY THE CITY COUNCIL AND ARE NOT VERBATIM TRANSCRIPTS. Safe & Smart Streets in Scottsdale Arizona

Petition summary and background	Every year, cyclists die after being hit by vehicles on Scottsdale roads. The City of Scottsdale has committed to enhancing the safety of ALL roadway users by studying six streets to determine if they can benefit from safety features. However, a local, anti-bicycle group has submitted a citizen's petition to the city demanding that these studies be halted. This counter petition will show the Scottsdale City Council and the media that road safety for ALL users enjoys huge support among Scottsdale residents.
Action petitioned for	The City of Scottsdale must remain committed to studies to enhance safety for ALL roadway users. The City Council must hear our voices in support of cyclist safety and resist the angry few who insist that only the amenities they use should be offered in Scottsdale.

Safe & Smart Streets in Scottsdale Arizona

6

Petition summary and background	Every year, cyclists die after being hit by vehicles on Scottsdale roads. The City of Scottsdale has committed to enhancing the safety of ALL roadway users by planning studies to see if six streets can benefit from safety features. However, a local, anti-bicycle group has submitted a citizen's petition to the City of Scottsdale demanding that these studies be stopped so that there can be no chance of enhancing safety on these roads. This counter petition will show the Scottsdale City Council and the media that road safety for ALL users enjoys huge support among Scottsdale residents.
Action petitioned for	The City of Scottsdale must remain committed to studies to enhance safety for ALL roadway users. The City Council must hear our voices and resist the angry few who insist that only the amenities they use should be offered in Scottsdale.

Petition to abandon the construction of new neighborhood trails on Red Bird Road and 77th Street for the Desert Foothills Expansion Project

SCOTTSDALE CITY CLERK

Contact Information For Petition:

July 29, 2024

City of Scottsdale
3939 N. Drinkwater Blvd
Scottsdale, AZ 85251

Dear Mayor and City Council and City Managers,

Property owners are overwhelmingly opposed to the construction of new neighborhood trails "Paths To Nowhere" within the Desert Foothills Community under the Desert Foothills Expansion Project.

In June 2024 a few property owners of the Desert Foothills Community received notice from the Transportation Department that the City is planning to construct a new 10' wide (4' path with 3' each side clearance) walking path through our residential properties parallel to the current roadways including Pinnacle Vista, Red Bird Road and 77th Street and other adjacent residential roadways. Further, we were informed property owners will be required to regularly maintain the new pathways. Please see attached notice as reference. While we agree that many of the trails the City has installed are appreciated by the local community, these specific neighborhood new pathways will not be appreciated nor used and should be abandoned.

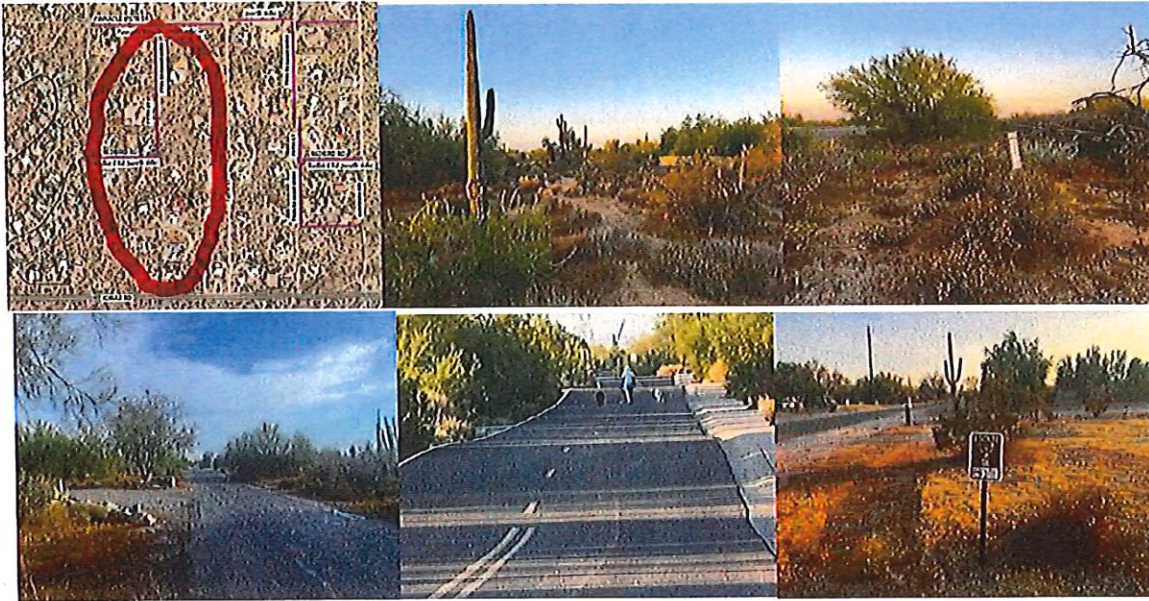

As citizens, voters and property owners we formally reject and protest this project as:

- 1) it does not satisfy the City's original purpose for the Trail system, and
- 2) it is a gross misuse and waste of taxpayer money, and
- 3) the City must represent the will of its residents and property owners.

The current plan to create new neighborhood pathways in parallel to Pinnacle Vista, Redbird Road and 77th Street and others is a direct contradiction of the City's original intent for Neighborhood Trails. The City's broader plan, crafted in 2003, creates three levels of trail systems in the greater Scottsdale area. These three levels consist of Primary, Secondary and Neighborhood Trails, and each level has a defined purpose. The Neighborhood Trails were *intended specifically for the benefit of the residents who live adjacent to these Trails*. However, the vast majority of the adjacent residents agree this project would be a detriment, not benefit to its residents.

This project will destroy our beautiful natural neighborhood aesthetics, disturb current infrastructure and cut across existing driveways and landscaping. This project will cut down thousands of feet of natural habitat in our dedicated Natural Area Open Spaces (NAOS) and adjacent wildlife territories without any formal assessment on impact of waterflows or the environment. Meanwhile, the existing roadways on Red Bird and 77th Street are already adequately suited for recreational use. They service less than a dozen homes, dead end on both sides and are not paved but were topped with a dust abatement treatment over 5 years ago. Our currently active equestrian homeowners (also Petitioners) live and ride on the existing dust-abated and non-dust abated roadways. They agree the current roadways do not negatively impact equestrian activity and there is no need for parallel pathways. Lastly, our community absolutely rejects the City's requirement that impacted property owners must each maintain the unwanted new parallel pathways regardless of the support, time, hassle and expense of the property owner.

As they are neither wanted or needed, construction of parallel pathways in this area is an irresponsible waste of taxpayer money and resources. As a prime example, there are many "trails" the City has already constructed throughout this area which are rarely used and not maintained. At best, the new pathways will become nothing more than an eye-sore on the landscape and *will connect with nothing*. Here are photos of the existing surrounding trails and roadways. As you can see, except for a few remaining markers, the trails are unrecognizable. This area has a lot of rattle snakes and thorny vegetation which are hazardous to people, dogs and horses. So even when there is a trail or sidewalk people are still safer and prefer to walk on our quiet community roads.

Most disturbing to us, however, is how the trail construction approval process has completely ignored local community interests. Multiple property owners asked for and were denied an opportunity to meet with the City and collect a community vote. We asked for and were denied a delay in an upcoming public August 3rd "field meeting" walking through our properties scheduled deliberately during a time the impacted property owners would not be able to attend. Finally, the Transportation Department has not been able to provide any legitimate rationale for continuing this "urgent" new construction without the desire, support or consent of the local community. These wasteful Paths To Nowhere in our neighborhood area serves no purpose as they were not requested, not needed and will not be used.

This petition represents the collective voices of the residents of the impacted Desert Foothills Community and together we formally call for the removal of our properties from the Desert Foothills Neighborhood Trail system. We further suggest that future development in Scottsdale only be conducted with majority consent of the affected property owners in each community.

The overwhelming opposition of the impacted residents should be sufficient enough to cancel this portion of the project.

Project Notice

Desert Foothills | Trail Construction

Scottsdale will begin construction on 1.5 miles of unpaved trails in the Desert Foothills neighborhood, near Jomax and Hayden roads, in early July. The 4-foot-wide trails will take about two weeks to build. This project will expand Scottsdale's 160-mile network of unpaved trails, connecting equestrians, hikers and bicyclists to schools, neighborhoods, city parks, and the McDowell Sonoran Preserve trailheads.

The trails will be constructed in the public right of way; and, just like city sidewalks, trail maintenance will be the responsibility of the adjacent property owner. Please see the map below to determine if a new trail is being constructed next to your property. Routine maintenance of the city's trail system includes maintaining the trail width by:

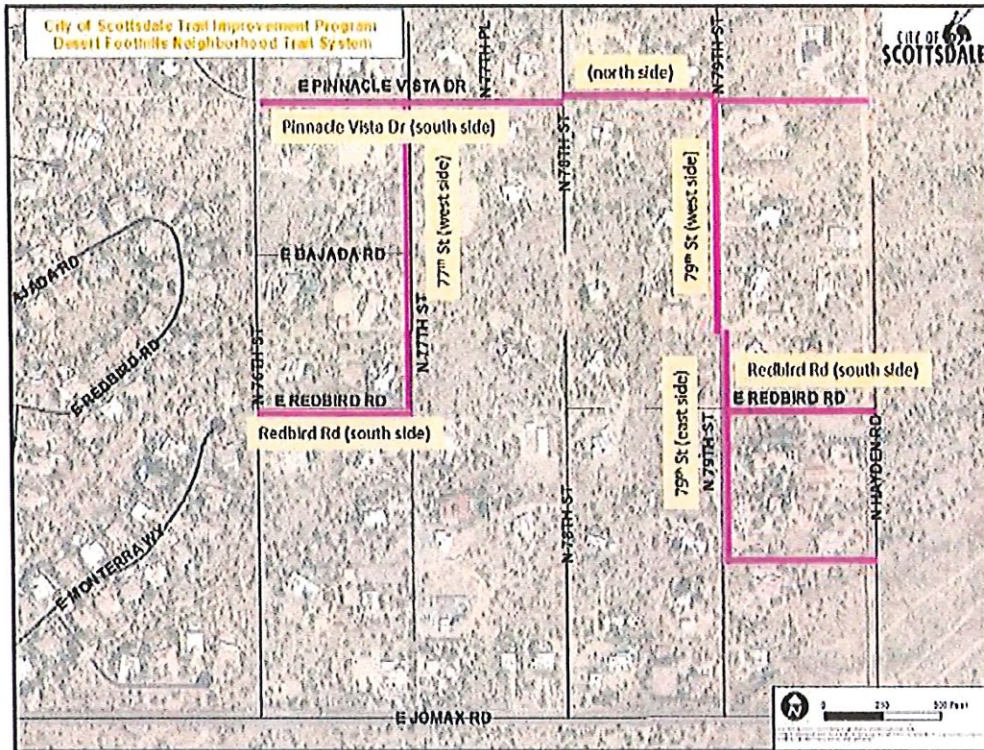

- Trimming plants and trees
- Removing thorny or spiny plants within three feet of trail edges
- Removing weeds and invasive grasses
- Removing litter and debris
- Visit ScottsdaleAZ.gov, and search "Trail Maintenance" for complete information

Please contact Greg Davies, Senior Transportation Planner, at GDavies@ScottsdaleAZ.gov with any comments or questions regarding the planned trail construction. Comments will be accepted through June 28, 2024.
