1. **Ordinance. Prepare an ordinance governing the City's use of ALPR technology, including criminal penalties for misuse, and bring it back for City Council consideration at the December 1, 2026, City Council Meeting.**
2. **Independent audit. The City Auditor will conduct an initial independent audit of the City's use of ALPR technology and the safeguards in place for it. /Thereafter, the City Auditor shall conduct an annual audit of the use of ALPR technology to ensure it is used appropriately.**
3. **Vendor evaluation and contract transition. Prior to December 1, 2026, unless it is administratively impossible, evaluate alternative ALPR vendors. The goal is to keep the public-safety benefits of ALPR technology while identifying options that give the City more control over data ownership, privacy, security, and data sharing. As part of this evaluation, review the City's current contract with Flock Safety and report back on how and when the City may exit it. The report should cover:**
    1. **The contract's termination provisions, notice requirements, and any related costs or penalties;**
    2. **The return, transfer, or certified destruction of City data held by the vendor;**
    3. **A transition plan that keeps ALPR public-safety capabilities in place during any change of vendor; and**
    4. **A recommended timeline for ending the current contract and moving to a new vendor, if one is selected.**
    5. **It is the City Council's intent not to fund the Flock Safety contract for Fiscal Year 2027-2028. The City Manager is directed to leave funding for the Flock Safety contract out of the proposed Fiscal Year 2027-2028 budget. Staff will also identify any non-appropriation, termination, or notice steps needed to end the contract by June 30, 2027, so that a replacement solution is in place no later than Fiscal Year 2027-2028, or as soon reasonably possible.**
4. **Transparency page. Explore creating a public technology transparency webpage that identifies and describes technologies used by the City for law enforcement.**
5. **User access. Consider limiting the number of City users who have access to ALPR technology and data.**
6. **Federal access. Include in the proposed ordinance, policy, or both a provision that prohibits federal government access to the City's ALPR technology and data, except to the extent required by law, such as pursuant to a validly issued subpoena or warrant.**
7. **Training and oversight. Require every authorized ALPR user to complete annual training and sign an annual attestation. Also require an annual review of the City's ALPR policies.**
8. **Retention. Review the current retention schedule for ALPR data. If a shorter retention period is appropriate, seek any necessary approval from the Arizona State Library, Archives and Public Records.**
9. **Other recommendations. Bring back any other recommendations staff considers appropriate.**

Vice Mayor McAllen seconded the motion.

– Councilman Kwasman made a friendly amendment to include in the proposed ordinance or policy or both related to the provision prohibiting the federal government access to the City's ALPR technology in data except to the extent required by law such as pursuant to validly issued subpoena, warrant, or exigent circumstance including, but not limited to, terrorist investigations or any other emergency investigations. The friendly amendment was accepted by Councilwoman Whitehead and Vice Mayor McAllen.

– Mayor Borowsky made a second friendly amendment to include in the proposed ordinance or policy a very strict hot list; to examine the maximum retention policy with a preference that it be 30 days; limit staff access; look at a two-tier system for historical searches that would require a second

level of approval; publish restrictions and uses on the City's website; the City Auditor to conduct an audit related to historical use within 90 days and make a recommendation on the possibility of a third-party independent audit.
